

## COOLING

### Turbo Mode

Turbo mode delivers cool and refreshing air with a single touch.

### High Efficiency Tube

Increase the number of inner groove teeth from 45 to 54, which enlarges the heat transfer area and increases heat transfer efficiency up by 7.3%.

45 teeth

Conventional Tube

54 teeth

High Efficiency Tube

Total heat transfer coefficient (W/m<sup>2</sup>K)

7.3%

## CONVENIENCE

Previous Air-Flow Angle

### Louver Position Memory Function

When you start the unit, the angle of horizontal louver will automatically move to the same position as you set previously.

### 2-Ways Piping Connection

Both left and right sides of the indoor unit are possible for outstretch of connective piping and drainage hose.

Left OR Right

### Refrigerant Leakage Detection

The system will stop operation automatically to ensure safety once the refrigerant leakage is detected.

### Remark:

- The above design and specifications are subject to change of product improvement without prior notice.
- The noise level data reflects the level in anechoic chamber.
- All units are being tested and comply to ISO 5151, ISO 16358-1.

## PRODUCT CATALOGUE 2022

## FAIRY SERIES

Non Inverter Wall Mounted Split (R32)

## DUAL PROTECTION

### Super Ionizer

The Super Ionizer Generator can generate positive and negative ions. When positive ions meet negative ones, they will release enormous energy instantly and resulting in bacteria death. The redundant negative ions not only eliminates odor, dust, smoke and pollen particles in the air, but also brings more freshness.

**Release high-concentration positive  
(3,500,000 n/cm<sup>3</sup>)  
and negative ions  
(10,000,000 n/cm<sup>3</sup>)  
to purify the indoor air.**

### Dual Purification System

The Dual Filters of Midea air conditioner protect you from harmful particles to make you live a healthy life.

#### 1 First Guard

The Dust Filter filters out dust and harmful particles from the indoor air.

#### 2 Second Guard

The Cold Catalyst Filter absorbs harmful particles like formaldehyde and ammonia.

### Automatic Self-Cleaning

The cooling coils are cleaned and dried automatically to ensure you breathe in fresh air all the time and extend the life of the air conditioner. You just need switch on the self clean function by remote control.

## SMART TECHNOLOGY

So smart,  
it sees your needs.

WiFi Control

### Smart Kits (Optional)

Plug in Smart Kit into the air conditioner display board to enjoy the Smart Technology.

### App Remote Control (APP: MSmartLife)

Control the air conditioner and set timers easily through the app. You can turn on the air conditioner before you get home and be greeted with the perfect temperature. Supports Android & iOS system.

## TRIPLE COMFORT

### Do Not Disturb for Uninterrupted Rest

Turn on 'Do not disturb mode', AF will switch into mute mode with LED monitor light off and low wind, which provides you quiet environment.

### Wide-Angle Airflow

The optimized air outlet design widens the air flow angle, dispersing cool air all around you for optimal comfort.

### Follow Me, Sensitive Cooling for Your Surrounding

'Follow Me' keeps you comfortable by measuring the air temperature around you. Keep the remote close to you, and it will measure the surrounding temperature to deliver perfectly adjusted cooling.

## RELIABLE AND DURABLE

### Fireproof Electronic Control Box

The electric control box uses ABS material with a 5VA flame retardant rating, and the outer surface is covered with sheet metal, which isolates the electric control box from fire.

### Golden Fin

The golden finned hydrophilic coil efficiently prevents bacteria from breeding and spread, creating a healthy and comfortable environment. It can also improve heating efficiency by accelerating defrosting. The unique anti-corrosive gold plating can withstand salty air, rain and other corrosive elements.

### Diamond-Cut Outdoor Unit

The air outlet in the shape of an 'Archimedes' screw and the bionic blower wheel work together to reduce the noise generated by the outdoor unit of the air conditioner. The T-shaped top cover ensures the stable operation of the internal parts and the durability of the power system.
