UNIQUE FEATURES

1 Screw, 1 Minute for Deep Clean

With the innovative 1-screw fixed design, it only takes 1 minute to disassemble the inside fan to clean. Save your time, save your technician bills.

1 Lift To Clean

No need to bother opening up the front panel anymore. Clean your filter as often as you want. 6 round magnetic connectors on the filter, the cover filter can be easily removed and put back just with 1 soft 'click'.

Fast Cooling

Quickly cools from corner to corner, so you're always comfortable wherever you are.

3D Airflow

The directional air-outlet moves automatically both horizontally and vertically, directing nice and cool airflow with the angled airflow to fill in every corner of the room.

UNIQUE FEATURES

Experience the air magic with Super Ionizer

Upon starting up, the air magic built-in device generates ions to remove airborne bacteria and dust. Making sure every breath take in clean, fresh and healthy air.

PrimeGuard™

Midea's PrimeGuard™ is more resistant in oxidation & corrosion than ordinary fins for condensers to furnish a steadier and long-lasting performance. It can also efficiently prevent bacteria from breeding and oil stain from adhering, and withstand weather elements to enhance durability.

Built-in WIFI Control

Wherever you are, you can keep your home comfortable using the MSmartHome App.

Smart Save iECO

Just click the SmartSave ieco button to activate the mode: your AC can keep you cool over an 8-hour night period, saving up to 60% energy. *

LIGHT COMMERCIAL | CEILING CASSETTE

AIR CONDITIONER

UNIQUE FEATURES

Independent Vane Control

(By wired controller)

Super Slim Design

Built-in Drain Pump

The drain pump can pump the condensing water up to 1000mm.

Fresh Air

Fresh air makes air quality healthier and more comfortable.

Reserved Air Outlet

Reserves the space for air outlet from the indoor side; It's available to connect air duct from the four sides to the nearby small rooms.

Cool Surround 360°

Unique seamless airflow louver design equipped with DC fan motor allows cool air to diffuse and sink in 360° direction, offering uniform cooling experience throughout the space.

Re-structure Water Pump

Water pump re-structure to external, more convenience for service. Over 20% increased airflow with hidden water pump structure, 5% larger heat exchanger, achieve higher energy efficiency, even more lower noise level.

Wi-Fi Control

(App: MSmartLife)

Build in Wi-Fi control function (For Inverter 2.0HP and above only)

- Fresh Air
- Built-in Drain Pump
- Sleep Mode
- LED Display
- Wide-angle Air Flow
- Quiet Design
- Auto Restart Function
- Timer
- Wired Controller (optional)
- Golden Fin

AIR CONDITIONER

- Built-in Drain Pump
- Sleep Mode
- Timer
- Auto Restart function
- Wired Controller (optional)
- Golden Fin

UNIQUE FEATURES

Up to 160Pa High Static Pressure

With new eccentric fan motor, the A6 Duct can be installed in various application that requires high static pressure up to 160Pa.

Built-in Drain Pump

The drain pump can lift the condensing water up to 750mm, which is convenient to install drainage pipes under most conditions. It also allows parts to be replaced from the side where maintenance is easier.

PrimeGuard Coating for Long-lasting Performance

The unique anti-corrosive golden coating on the heat exchangers can withstand the salty air, rain and other corrosive elements. It also effectively prevents bacteria from breeding and improves heat efficiency.

Light Weight and Compact Design

With the weight decreases almost 20% and the size shrinks 12.5% in comparison with conventional one, the A6 duct save lots of installation efforts and time as well as creates bigger maintenance space.

UNIQUE FEATURES

Self-diagnosis and Auto-protection

Once unusual operation or parts failure happens, the unit will shut off automatically to protect the system, meanwhile it will indicate protection or error code for fast servicing

Active carbon filter

The anti-dust and active carbon filter help to capture particles including allergens such as pollen and dust. Enjoy the fresh air instantly

Golden Fin* Technology

Quick heat exchange to assure longer duration performance, the golden fin technology is more resistant to water, rust, adherent grease, oxidation, and other corrosive elements.

Timer functions, sleep better at night

Set various timer function using your wireless remote control. Sleeping better at night with ease

360° Mobile universal wheel design easy portability

Attached wheels provide greater versatility of movement, so that you can relocate the air conditioner without difficulty anywhere you want to cool (window access required).

No Bucket Design

Bucket free design brings satisfying cooling power. No draining as the condensate water evaporates automatically.

Shower Cooling System

The advanced water consumption design can make the condensed water of the portable air conditioners vaporize and discharge outdoors. Meanwhile, the air conditioners can bring you more comfortable living environment.

Self-evaporative System

No drainage More efficient

WASHING MACHINE

- BLDC Motor
- Auto Clean
- Turbo Wash
- Lunar Dial
- Add Garment

UNIQUE FEATURES

Focuses on Hygiene and Health Care. In MF200, HealthGuard system points to all cycles in left line, combined with Auto Clean and Steam Care.

AUTO CLEAN

Auto Clean cycle will be automatically activated to have inner and outer drum totally cleaned. (includes programs as Cotton, Mix, Synthetic, Jeans, Cold Wash.)

Steam Care

Steam Care will have drum heated to develop steam to reach **99.99%*** Sterilization. (includes programs as Allergy Care and Steam Care) • Tested by Vkan Certification & Testing Co., Ltd.

Inverter Quattro

Leads to **70%** energy saving, **10.4%** lower noise and more than 10 years durable lifespan.

Lunar Dial

Inspired from the splendor and purity of luna, we have Lunar Dial as the key element of Midea Laundry Series. Different from traditional knobs, Lunar Dial integrates the functions from both knob and screen display, offering you more direct laundry experience.

Drum Clean

Manually selected from touch panel, then drum will have 1/3 water in and heated up to 90°C to have drum self-cleaned -- Anti-bacteria and high temperature to kill germ.

UNIQUE FEATURES

Smart Control

Connect your smart devices to MSmartHome, and easily control and enjoy the moment of free laundry whenever and wherever you are. Just unlock your favourite laundry program on your smart device and enjoy unlimited laundry possibilities.

Lunar Dial

The knob serves as the control center which integrates the functions of knob and screen together to facilitate your operation. Just focus on the middle of the machine, and select any program and see its information at the same time.

Enhance Your Clean And Healthy Life

HealthGuard focuses on Hygiene and Health Care. MF200 HealthGuard system points to all cycles in left line, combined with Auto Clean and Steam Care.

Auto Clean

For every wash, high-speed water flow will clean dirt and residues on the inner and outer drums to prevent secondary pollution to the clothes.

Steam Care

The Steam function is activated before main wash, which will generate warm steam to reach **99.99%*** sterilization and greater washing performance.

• Tested by Vkan Certification & Testing Co., Ltd.

Turbo

Faster and Stronger washing rhythm compared to normal wash. 40% time saving to reach the same washing performance. (Only programs with "icon" added with Turbo) **(Cotton, Mix, Synthetic, Jeans, Bulky)**

Drum Clean

Strong 90°C hot water flows effectively clean the inner and outer drums. With MSmartHome, users will get regular reminders to run the drum clean program and keep the washing environment clean and healthy.

UNIQUE FEATURES

HYGIENE 90°C

Enhanced Cleaning and Sterilization

Stubborn stains, detergent residues and harmful germs are thoroughly removed when choosing the Hygiene 90°C mode, which is beneficial for children and elders who are especially sensitive to allergens.

AUTO CLEAN

High-speed water flow clears dirt residues off the inner and outer drum to prevent secondary pollution of the clothes.

Lunar Dial

Inspired from the splendor and purity of luna, we have Lunar Dial as the key element of Midea Laundry Series. Different from traditional knobs, Lunar Dial integrates the functions from both knob and screen display, offering you more direct laundry experience.

Multiple Temperature

Multiple Temperature to select for gentle wash delicate clothes such as wool, and silk.

One-Touch Pre-Wash

Extra Care for Dirty Clean
Adding Pre-wash program for badly messed clothes by one step, dirty clothes will be soaked and gently washed before main cycle to achieve the best washing result.

- Reverse tumbling
- 14 Programmes and performance

UNIQUE FEATURES

HYGIENE

DRY LAUNDRY HYGIENICALLY

After the drying cycle is completed, the inner drum will remain at the same temperature for more than 30 minutes to ensure effective sterilization.

HEAT PUMP TECHNOLOGY

DRY MORE EFFICIENTLY AND QUICKLY

- Motor drives the impeller to generate circulating air.
- The compressor works with heat exchanger to have air flow heat, and then goes into the inner drum to dry clothes.
- The air flow goes through the filter back to the heat exchanger, then cooled down to form condensate through compressor.

Energy and Time Saving

Heat pump system can reuse the heat generated during the drying process, thus to improve energy efficiency and reduce power consumption.

VS

Gentle Care

Heat pump drying controls the temperature in two directions to maintain the air temperature below 50°C and provides protection for high-grade fiber fabrics.

HEAT PUMP DRYING

CARE MORE AND SAVE MORE

The large capacity spreads the clothes evenly, and the strong air flow flattens wrinkles and prevents entanglement. Clothes are left soft and fluffy and can be wore immediately after drying.

UNIQUE FEATURES

HYGIENE DRY

DRY LAUNDRY HYGIENICALLY

After the drying cycle is completed, the inner drum will remain at the same temperature for more than 30 minutes to ensure effective sterilization.

Air Vented Drying

DRY More Quickly and Easily

- No enclosed circulation in air vented dryer
- Cold fresh air enters into drum from the gap, hot and humid air flows vent directly out of machine.

ANTI-CREASE

Minimize Wrinkles

Keeping rotating every 10 minutes in set time after mission completed, which helps to prevent wrinkle developed.

Refresh

Removed Odors

The Refresh function improves fresh air circulation inside the drum to remove unwanted odors.

QUICK

Drying Without Waiting

Get less loads to dry within 40 minutes when you're in a hurry.

FULLY AUTO

WASHING MACHINE

AUTOCLEAN

From Inner to Outer Drum

Avoid secondary pollution

The water flushes between the inner and outer drums throughout the whole self-cleaning process, removing dirt and residues away to maintain a healthy washing environment.

Powerful water flow flushes between the inner and outer drums, removing dirt and residues away

Auto Clean cycle is automatically activated during drain process, ensuring a clean and safe washing condition.

+ Hygiene

Advanced Cleaning and Sanitization

For children and seniors who are more sensitive to bacterium and germs, Hygiene provides special care to protect their health.

Based on original programs, Hygiene provides:

Prolonged washing time

Enhanced tempo and water flow

3 times rinsing (Once more)

ONE TOUCH WASH

Fuzzy Logic Technology

Just power on and press Start.

The Fuzzy Logic is activated to weigh the laundry and automatically select the proper program accordingly.

Water level and time is set, offering you a worryless laundry experience.

1 Power on

2 Start

to activate Intelligent Washing.

15' Quick Wash

A Cycle for small loads of laundry will be finished within 15 minutes. Never in a hurry, and always be at your best.

Water Cub Tub

Imitate hand washing to provide gentle care for clothes.

- Durable Body
- Large Knob Design
- Dual Force Pulsator
- Water Inlet Selection

- Higher Back Control Panel
- Humanized Hook Design
- Metal Lint Filter
- Air Fresh

UNIQUE FEATURES

Durable Body

The body design is mainly made of anti-rust material, which is hardly rusted and more flexible than steel material.

Even in tough circumstances, it's more durable and hard to be dented.

Higher Back Control Panel

Best viewing angle for better user experience.

Large Knob Design

Easy to operate and recognize functions displayed.

Humanized Hook Design

The washing tank cover is removable. And the hook is designed as kit for hanging the cover to free your hands.

Dual Force Pulsator

The independent big and small pulsators will generate different water flows in multiple directions and levels to stimulate hand-washing performance.

Airfresh

Thanks to the unique AirFresh design, the water can be effectively taken away from clothes by the inner and outer air circulation.

Easy-to-clean Metal Lint Filter

The removable filter is made of Metal material which ensure **HYGIENE** condition during the washing process, it can also be easily taken out, so that leading it to be simple to clean up the lint, fluff and particles.

It only takes a small effort to keep your machine working its best.

Water Inlet Selection

The switch can control water inlet direction, switch to left to let water flow in wash drum and right to let water flow in spin drum which can enhance rinsing effect.

Hence there's no need to move water inlet pipe anymore.

UNIQUE FEATURES

Smart⁺ Cooling with Inverter Quattro

Consistent Freshness Via Smart⁺ Cooling

Vario Box

The left crisper in the fridge can be controlled directly through the external digital control panel. The temperature can be adjusted as 6°C, 2°C and -1°C.

Inverter Quattro

Compressor and fan inverter, speed in response to cooling demand. It uses less energy, minimizes noise and makes temperature stable.

Platinum Fresh

Effectively solve odor problem and create a odorless environment in refrigerator.

No Frost

No need to defrost. Remain clear and clean.

360° Air Cooling

Keeping original taste, great shape and bright colour.

Tempered Glass

Super strong glass shelf; maximum load bearing 36kg.

Changeover Crisper

Drawers on the first floor of the freezer can be switched over to a bigger space. Which is used to hold large food.

Anti-Fall Bins

The bottom row door bins of the fridge are increased by 2cm to prevent the big bottles from dumping.

UNIQUE FEATURES

Smart⁺ Cooling with Inverter Quattro

Inverter Quattro

Compressor and fan inverter, speed in response to cooling demand. It uses less energy, minimizes noise and makes temperature stable.

Multi-Air Flow

Multi layer air duct design, makes cooling air-flow in multi-air layers.

- Even cooling
- More stable temperature
- Longer freshness

Pull-through Handles

Signature flat-door design and Streamlined pull-through handles. Clean lines and modern form blend beautifully into your kitchen.

90° Accessible

Crispers can be pulled out even the door is opened at only 90°, letting you easy to take out the food.

Color display

The color display has a personalized operation interface and smart appearance, delivering clearer and brighter visuals as well as diverse and novel experiences.

Ultra-thin Foaming Tech

To give as large space as possible for storage, the thickness of the fridge's foam layer is reduced. The compact design increases the capacity at the same size of the refrigerator.

SAVE 2.0
SUSTAINABILITY ACHIEVED VIA ENERGY EFFICIENCY (SAVE)

UNIQUE FEATURES

Inverter Quattro

Compressor and fan inverter, speed in response to cooling demand. It uses less energy, minimizes noise and makes temperature stable.

Smart Sensor

Special built-in smart sensors will detect fluctuating external temperature to maintain an optimum internal cooling temperature for longer freshness. Super-efficient built-in Inverter compressor will ensure optimum energy saving

Digital Temperature Control

4 precise temperature settings to suit all your cooling needs. Super Cooling function is especially useful for speedy cooling.

True Big Capacity

Compact body with larger interior space, achieved using advanced foaming technology for an ultra-thin insulated wall. Up to 8% more space vs. conventional foaming for a more spacious interior for storage.

Humidity control

Humidity adjustable crisper, which can store different food using at different temperature and humidity setting.

Chiller Box

Convenient storage for deli, fresh fish or meat. Chilled at 0°C to maintain freshness without the freeze for time saving food preparation.

Expandable Egg Trays

Uniquely designed egg trays are space saving yet practical.

Active-C Fresh

Built-in layered carbon removes odor so that food stays fresher longer.
