

## THE HIGH QUALITY CERAMIC SURFACE GIVES A GREAT BALANCE BETWEEN STYLISHNESS AND PRACTICALITY.

The sophisticated cooktop surface is sleek in design while practical in usage. It fits with most interior designs and reflects your unique taste and style.

## EASYCLEAN CERAMIC GLASS.

The cooktop surface is designed relatively cool and smooth. It is high temperature resistant, while the soiling can be cleared easily with a wet cloth.

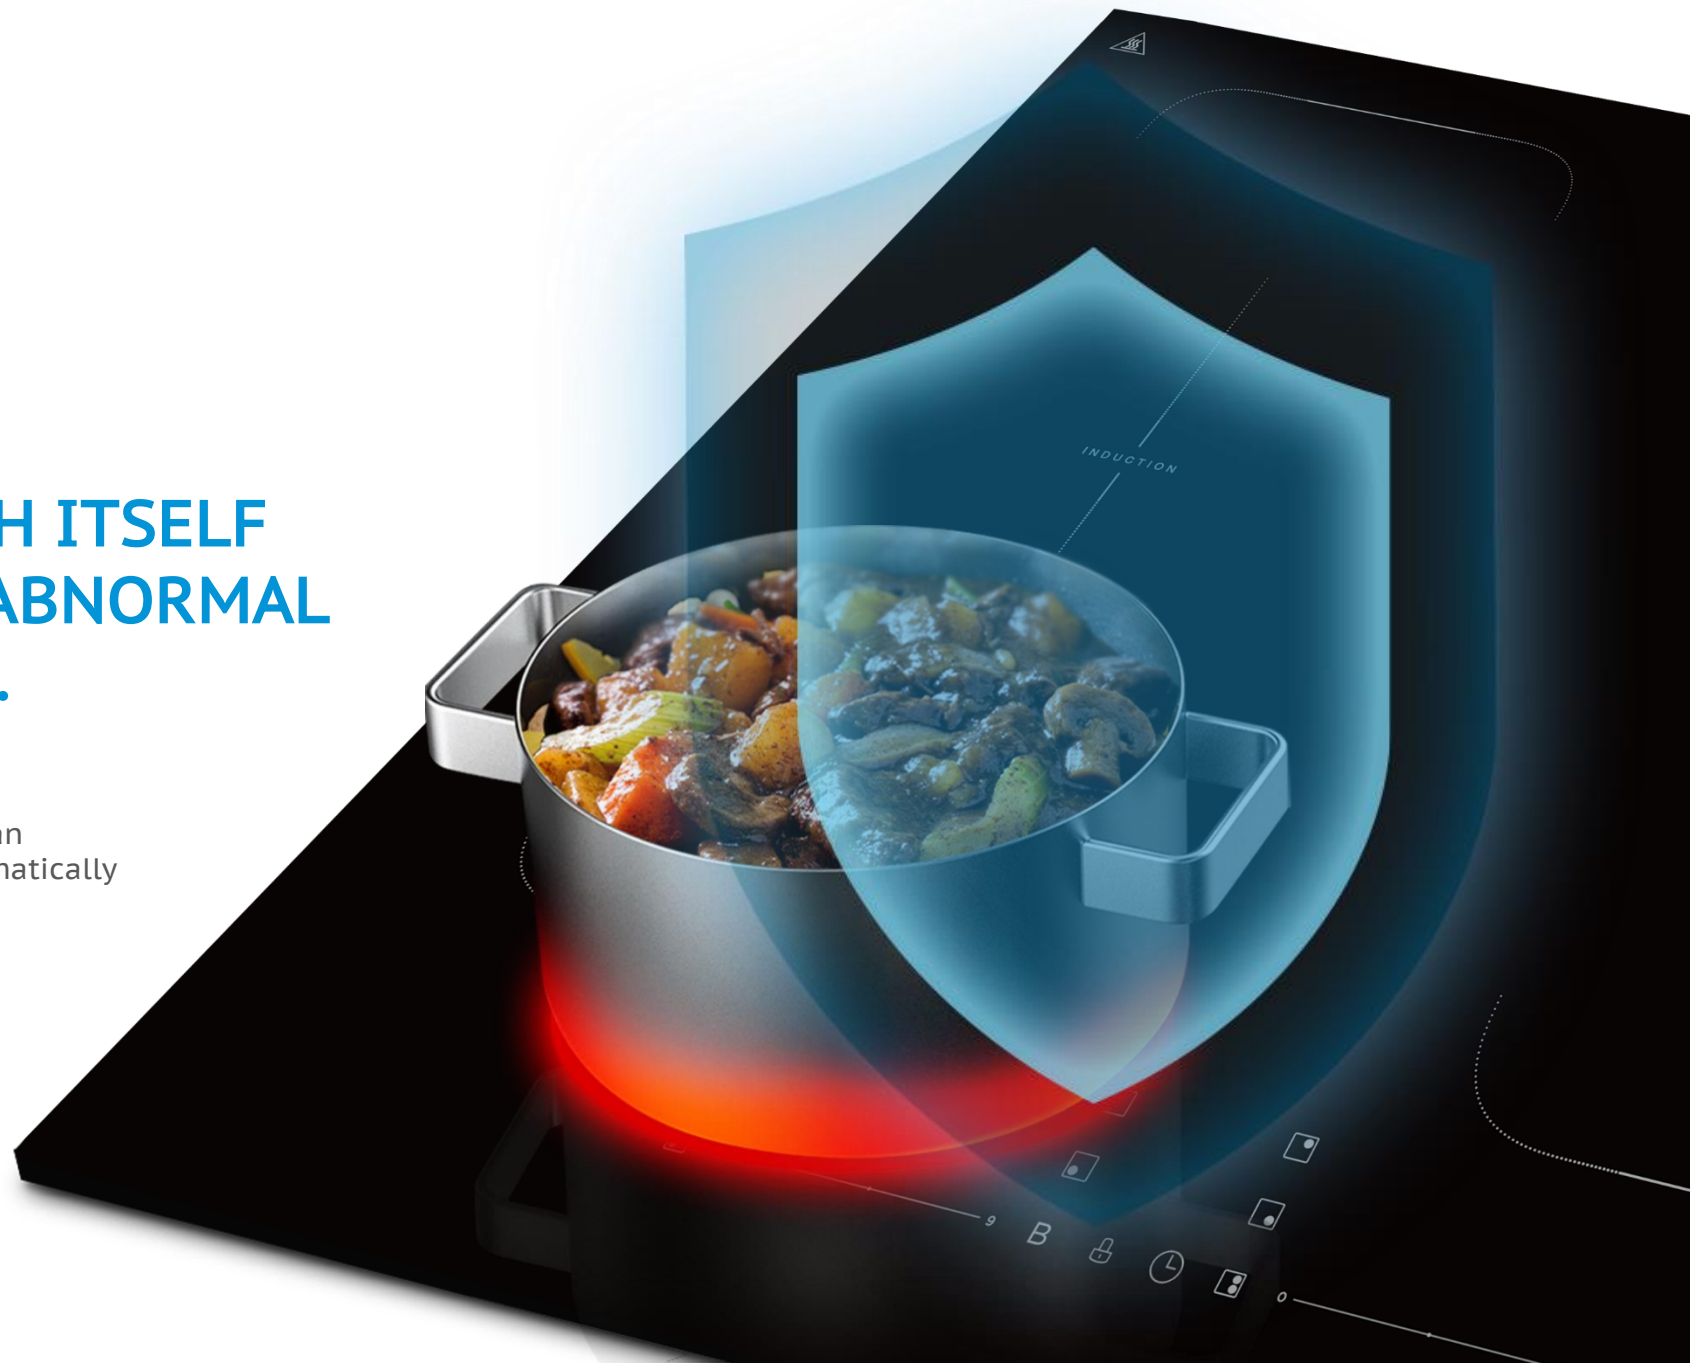

## INDIVIDUAL TIMER: EACH HEATING ZONE WORKS INDEPENDENTLY. MORE DISHES CAN BE DONE AT ONE TIME.

Individual Timer -You can control every heating zone independently with different time and temperature. When the cooking is done, the zone will automatically turn off and inform you with a sound signal.

## SAFETY POWER OFF: THE COOKTOP WILL AUTOMATICALLY SWITCH ITSELF OFF WHEN DETECTING ABNORMAL LONG-TIME OPERATION.

If a cooking zone operates At the same power for an abnormally long time, the power will be will automatically switched off.

## OVERHEATING PROTECTION: PREVENTS ACCIDENTS AND PRESERVES A LONG SERVICE LIFE.

With a temperature sensor, the cooktop will automatically switch off in the case of extreme heat. It protects the cooktop from overheating and ensures a long service life of the appliance.

## **CHILDLCK: PREVENTS ACCIDENTAL OR UNAUTHORIZED OPERATION OF THE COOKTOP**

By starting the childlock, the control panel is completely locked and impossible to turn on. This minimizes the risk of accidental operation, especially preventing kids from getting burnt.

## RESIDUAL HEAT INDICATORS - INFORMS YOU WHICH ZONE REMAINS HOT.

It is considerate to prevent you from getting burnt. The lights will be illuminated when the cooktop is hot, while disappears once the hob cools done.

## CHECKPOT: TURNS OFF IF NO COOKWARE IN PLACE.

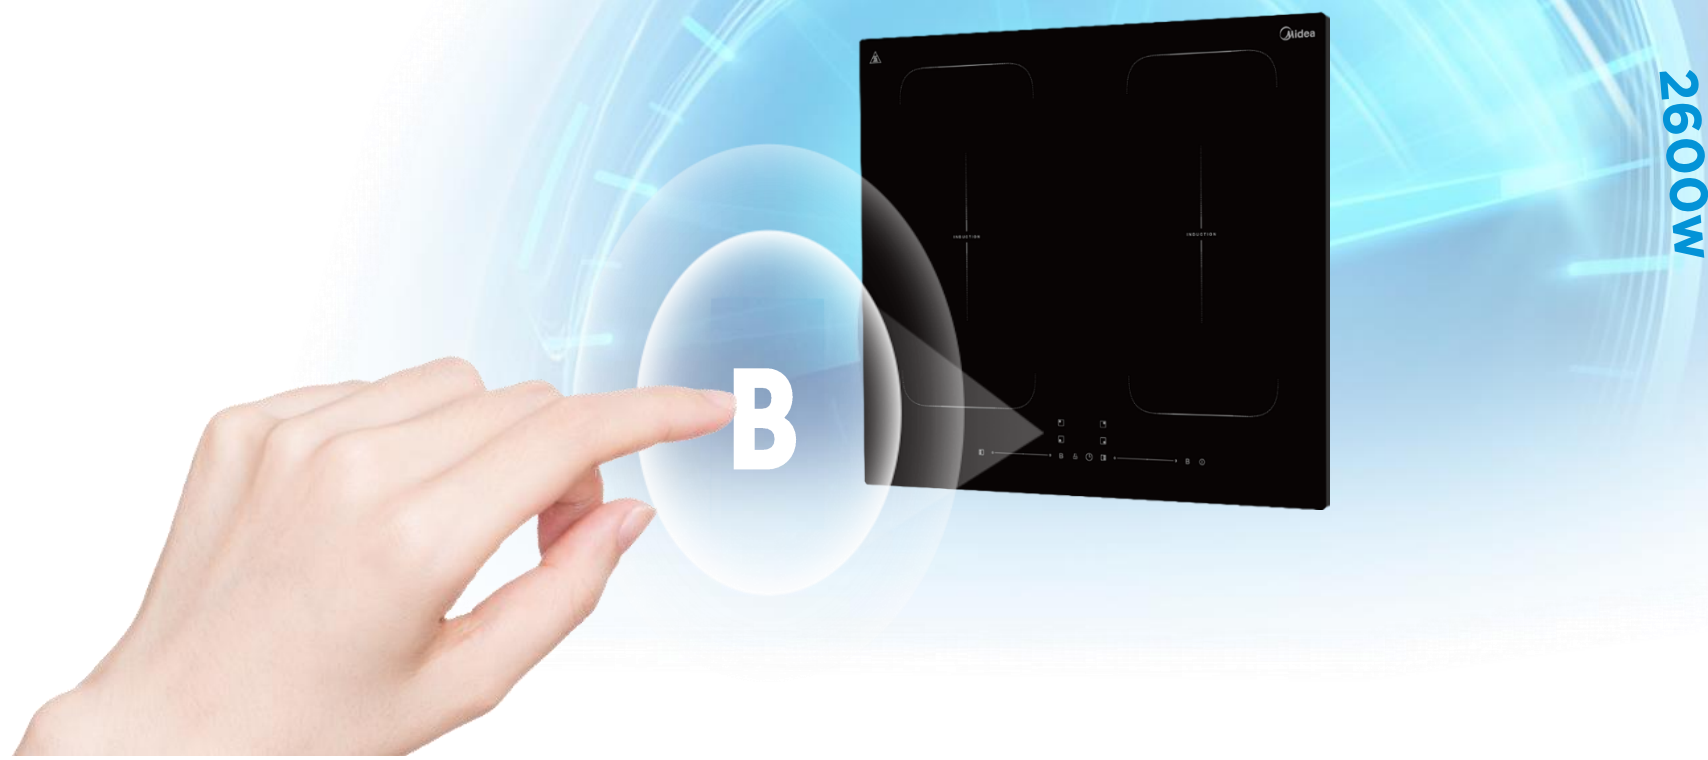

The induction hob has a pan sensor. If no pan is placed, the heating power eliminate automatically. When you are unsure if your cookware is induction-ready, test them with the checkpoint function– if no heating activated, this pot is not qualified.

## INSTANT POWER BOOSTING

Save time and energy with the Boost function. When this function is on, the power increases rapidly, equipping a precise temperature control and time saving.

## 9-STAGE POWER MAKES UNLIMITED POSSIBILITIES.

Different cuisines need different temperatures. We have a 9-stage power control for infinite creations.

## SLIDE CONTROL: COMPLETELY INTUITIVE.

It is so intuitive and responsive to use this slide control, especially when the meal is about to boil over. With a swipe on the screen, the power could be turned down rapidly.

## TWO POTS AT ONE TIME OR TWO COMBINED AS ONE – BOTH MIGHT AS YOU WISH.

Bridge Element allows you to cook two separate dishes at once, or combine elements for large pots or griddle-use.
